

# ***WiSACWIS RELEASE 3.2.1 NOTES***

## ***Document Plans***

<i>INCIDENT</i>	<i>FUNCTIONALITY</i>	<i>NOTES</i>
2882	Case progress evaluation and case plan	Workers can create a new Case Plan (and terminate an existing Case Plan) for a case that has a Case Progress Evaluation that was Not Approved.

## ***Private Provider***

<i>INCIDENT</i>	<i>FUNCTIONALITY</i>	<i>NOTES</i>
3040	Service type under private provider	Workers are now able to add new service types for private providers after the provider has been approved. Workers are also able to inactivate existing service types in order to inactivate a private provider.

## ***Security***

<i>INCIDENT</i>	<i>FUNCTIONALITY</i>	<i>NOTES</i>
3032	Login window	For Citrix users, on the first login attempt after a release update the login screen included an extra field that was superfluous to the production login process. This field has been removed.
